

GEORGE STONE TECHNICAL CENTER TRANSFER OF CREDIT POLICY

State Board of Education Rule 6-A-10.024(17), Florida Administrative Code, reads: When a student transfers among institutions that participate in the common course designation and numbering system, the receiving institution shall award credit for courses satisfactorily completed at the previous participating institutions when the courses are judged by the appropriate common course designation and numbering system faculty task forces to be equivalent to courses offered at the receiving institution and are entered in the course numbering system. Credit so awarded can be used by transfer students to satisfy requirement in these institutions on the same basis as native students.

Students transferring from institutions that participate in the statewide numbering system may be awarded credit toward the program they are entering for any successfully completed course work that relates to their program. Students transferring into a program from an institution where the statewide course numbering system is not utilized will have their transcript evaluated for appropriate credit. Students must provide an official transcript from a regionally accredited institution to be eligible for transfer student status. In all cases, George Stone Technical Center will be the final authority on transfer credit.

Exceptions to the General Rule for Equivalency

The following courses are exceptions to the general rule for course equivalencies and may not be transferable. Transferability is at the discretion of the receiving institution:

- Performance or studio courses in Art, Dance, Theater, and Music
