Home health aides are a valuable part of any health care team. If you have a desire to make a positive impact on the lives of the sick, disabled, and elderly, this could be a great position for you to consider. Home health aides (HHAs) assist patients with completing important personal tasks such as dressing, bathing and a variety of hygiene needs. Additional aspects of this position include assisting clients to remain safe in their own homes by providing a higher level of assistance with minor cleaning and instrumental activities of daily living (IADLs) such as cooking, light housekeeping, and laundry.
